Inter-Tel® 3000

The Complete
Communications Solution
for Your **BUSINESS**

Imagine your business with a single system that can manage a complete range of converged voice and data requirements over a single network, while offering the feature-rich phone solution that meets the needs of your busy office. Now you can enhance your office communications with the right system, the first time, with Inter-Tel 3000.

The Inter-Tel 3000 Business Solution Offers:

- An affordable path to convergence, allowing you to reduce operating expenses and streamline business operations
- A progressive telephone system with all the features and functionality of a traditional multi-line voice solution
- A host of leading-edge standards that will offer voice and data connectivity
- Easy expansion capabilities offering a progression of voice and data options that do not require you to replace your entire phone system
- The ability to connect existing analog equipment including fax, cordless telephones, credit card machines and more
- Remote extension capability – ideal for small, remote or home office – simply connect the IP-based system phone via the Internet to the Inter-Tel 3000 Broadband Module for a direct connection to the office phone system

Inter-Tel® 3000 for Business

By leveraging the powerful features of the Inter-Tel 3000 phone system, you can:

- Utilize the auto attendant for professional greetings and after hour answering/courtesy services
- Conduct 3-way conference calls
- Always know who is calling with Caller ID that shows name and number
- Capture important information during calls by using the Record-A-Call feature
- Provide employees and/or strategic retail areas with their own line and voice mailbox
- Use the speakerphone for hands-free calls
- Avoid unwanted calls through Do-Not-Disturb feature
- Always know when you have a message waiting with the message indicator light and remote message notification
- Increase productivity by providing teleworkers with a remote extension to stay connected to the office through the Internet
- Everyone in the office can be set up to have his or her own line and voice mailbox
- Complement the system with devices such as a fax machine, and/or credit card machine

Use paging features to announce calls and visitors to associates temporarily away from their desk.

Add Internet options for shared broadband access to streamline your back office operations.

Provide full office connectivity for remote facilities with VoIP telephones connected via high speed Internet

Complement the system with devices such as a credit card machine.

Allow callers to receive a customized greeting, providing location, driving directions, hours of operation and more, through the courtesy service feature.

Inter-Tel 3000 is a scalable, voice-centric communications solution catering to up to 40 users in business settings such as:

- Law Firms
- Accountants Offices
- Insurance Agencies
- Small Health Care Facilities
- Architecture Firms
- Real Estate Offices
- Consulting Firms
- Public Relations Agencies
- Restaurants
- Retail
- Country Clubs & Golf Courses
- And more
