Inter-Tel® 3000 for Residential

By leveraging the powerful features of the Inter-Tel 3000 phone system, you can:

- Use the speaker phone for hands-free calls
- Use Do-Not-Disturb options to avoid nuisance calls
- Use the intercom or paging features to reach other family members throughout the house
- Automatically route calls to specific phones with the Caller ID detection feature
- Provide everyone in your house with their very own voice mailbox
- Set up individual lines for family members
- Use the speakerphone available on Inter-Tel 3000 system telephones for hands-free calls
- Conduct joint conversations on a single line

Add wireless phones to extend your access to the yard or pool.

Place phones in your guest house, garage or other free-standing facilities on your property.

Enhance your telephone system with with hearing aid compatible telephones.

Utilize the same valuable features for your home-based business or while telecommuting:

- Utilize the auto attendant for professional greetings and call processing
- Set call forwarding to cell phones so you don't miss the call you've been waiting for
- Conduct 3-way conference calls
- Connect your Inter-Tel 3000 system at the office with your IP-based system phone at home for full feature access
- Augment your system with multi-device options such as a fax machine or credit card machine
- Record calls using the Record-A-Call feature so you can capture important information
- Utilize the remote notification feature to be alerted to new voice mail messages

Set up restrictions to control when your children can have use of their phone and who they are permitted to call.

Provide electric gate release from any phone in your house.

Stay connected to your home-based business from anywhere in the world with the IP-based system phone connected to the Internet.
